

Beast (feat. Waka Flocka)

Mia Martina

Waka:]
Hey baby, you know I'mma turn you up
Waka Flame, I got you! You know! Nowhere to run run run, come here right now
Here right now, here right now
There's only one thing that I wanna feel right now
Feel right now, feel right now
You are over my skin, I'm anxious
Pin my body boy, I'll be your campus
Don't talk to me, just show me your talent
Your talent, oooh oh!
One look and you're mine, keep your eyes on me now
'Cause once the stars align, you will bring the beast out
Nowhere to run run run, come here right now
Right now, right now
'Cause when the sun goes down, the beast comes out
Comes out, comes out
'Cause once the stars align, you might bring the beast out
One look and you're mine, keep your eyes on me
Nowhere to run boy run, come here right now
Right now, right now Keep my eyes on you, keep entires to you
Deep inside, oh deep inside, I be inside of you
Twenty thighs on uh, we gon' slam bang that cool
We gon' leave out all that traffic
Got way wants, and I work magic
Too much plastic and it end up tragic
Just attraction, no attentions, fuck em!
Nowhere to run run run, come here right now
Right now, right now
'Cause when the sun goes down,
The beast comes out, comes out, comes out
'Cause once the stars align, you might bring the beast out
One look and you're mine, keep your eyes on me
Nowhere to run boy run, come here right now
Right now, right now I'll take you down, can you keep it up boy?
Up all night, up all night?
Don't you run run baby give me what I like
What I like, what I like
You are over my skin, I'm anxious
Pin my body boy, I'll be your campus
Don't talk to me, just show me your talent
Your talent, oooh oh Nowhere to run run run, come here right now
Right now, right now

'Cause when the sun goes down,
The beast comes out, comes out, comes out
'Cause once the stars align, you might bring the beast out
One look and you're mine, keep your eyes on me
Nowhere to run boy run, come here right now
Right now, right now
Nowhere to run boy run, come here right now!
