

If Ever I Could Love

Keith Urban

I used to cry out in the middle of the night baby hold me tight
But there was no one beside me when I opened my eyes
Now I turn the corner of those days and nights
As somethin' inside me changed and I think I might be startin' over
And I don't wanna run, oh no 'cause you might be the one Baby if ever I could love I think it
could be with you
If ever I thought I found somebody so true
I wonder if you feel the same way that I do
If ever I could love I think it could be with you You know I can't read your mind, my love but it
seems to me
That your heart and mine tonight are defyin' gravity
There's somethin' so familiar and so unknown
The closer that we get I swear it feels like comin' home
And I'm ready to be brave, oh yeah when you look at me say
Baby if ever I could love I think it could be with you
If ever I thought I found somebody so true
I wonder if you feel the same way that I do
If ever I could love I think it could be with you You know if ever I could love baby
If ever I could love baby
If ever I could love I think it could be
If ever I could love, oh yeah know it baby If ever I could love I think it could be with you
If ever I thought I found somebody so true
I wonder if you feel the same way that I do
If ever I could love I think it could be with you If ever I could love
If ever I could love
If ever I could love
If ever I could love
I was scared to love again till the day that came
When she walked out of my life
I got hurt so bad I swear I'd never let another
Inside this heart of mine But you touched my hand and every plan that I had
Disappeared like a fallin' star
There's a new beginnin' and I'm movin' to the rhythm
Of a beatin' braver heart, a braver heart If ever I could love
If ever I could love
