

Chariots

[Mike Oldfield](#)

And the rantings and raving fight
Put an end to this tyranny
Cos we're fighting to be free And there'll be chariots to carry us home
And there'll be chariots to carry us home
Chariots to carry us home
And there'll be chariots to carry us home There's no use to be chained
When you know nothing's to be gained
So break out the army now
We will stand or we'll fall and bow
Put an end to this tyranny
Cos we're fighting to be free
And there'll be chariots to carry us home
And there'll be chariots to carry us home
Chariots to carry us home
And there'll be chariots to carry us home Put an end to this tyranny
Cos we're fighting to be free And there'll be chariots to carry us home
And there'll be chariots to carry us home
Chariots to carry us home
And there'll be chariots to carry us home And there'll be chariots to carry us home
And there'll be chariots to carry us home
Chariots to carry us home
And there'll be chariots to carry us home
Chariots to carry us home
Chariots to carry us home
Chariots to carry us home
Chariots to carry us home
