

# All Nighter

## Lady Antebellum

I'ma walking out of my front door  
I'ma jumping in my car  
Take another left on mainstream  
Heading right to where you are  
I'ma rolling down my window  
I'ma turn the radio on  
Find a little spot to let go  
Get a little good time gone  
'Cause this is an  
All nighter  
I get lost with you  
Running through every red lighter  
A falling and feeling like a star  
Right out midnight skyer  
Let the time fly by  
It's not in the end  
Taking a chance  
Starting the fire

This is an all nighter We're gonna take that sunset  
Make it turn the blue sky red  
We can worry about tomorrow  
o watch her silly lips instead  
Get a little backroad busy  
Let the moon shine on us  
Get a little lovedrunk dizzy  
'Till the sun still back up  
'Cause we just can't get enough  
'Cause this is an  
All nighter  
I get lost with you  
Running through every red lighter  
A falling and feeling like a star  
Right out midnight skyer  
Let the time fly by  
It's not in the end  
Taking a chance  
Starting the fire

This is an all nighter Oh, Baby Take another sip talking 'till two  
'Cause this is an All nighter I'ma walking out of my front door  
I'ma jumping in my car
