

Why (with Stevie Wonder)

[Kirk Franklin](#)

I pledge allegiance to the (tell me what we gone do)
I used to know you but (you don't call you used to do)
If you still love me can I (give me a chance just to say how I feel it may hurt you but what I'm
saying is for real)
We're killing babies and (I love to see children play)
I've got depression (there's a new pill I saw today)
How hypocritical to (nothing is wrong take a picture and just smile money's coming after
while)(Why oh why) we keep believing lies
(Why oh why) did laci have to die
Why oh why Lord tell me when our change is gon come
There are not fathers and (the system's holding me down)
Sisters are dying of AIDS (I know my man don't sleep around)
Don't be stupid listen (we all gone die and since you only live once you do you you go head
live your life)
We're building chruches but (my pastor is on tv)
But are we building people (I filed for divorce last week)
We're wasting money tell me (why should I save let me have my worldly things God said he'll
supply needs)
That ain't what He means(Why oh why) can't our soilders come back home
(Why oh why) it seem like innocence is gone
(Why oh why) are people still losing jobs
(Why oh why) we're spending money building bombs
Why oh why Lord tell me when our change is gone comeI just wanna be freeWake up no more
sleeping (seems like my life ain't gone change)
Let's stop making excuses (I pray but things still stay the same)
See Jesus said that he will (please take this pain I can't make it on my own ain't no sunshine
when you're gone)
(Why oh why) Don't we give you a chance
(Why oh why) put our life in you hands
(Why oh why) are we afraid to say you name
(Why oh why) is it because we want the fame
(Why oh why) did my homeboy have to take his life
(Why oh why) that homeless man's outside tonight
(Why oh why) when trouble comes we wanna pray
(Why oh why) our country pushes you away
Why oh why Lord tell me when our change is gone come
