Keane

I hold you in my hands  
A little animal  
And only some dumb idiot would let you go  
But if I'm one thing then that's the one thing  
I should know...  
Can anybody find their home?  
Out of everyone can anybody find their home?  
I hold you in cupped hands  
And shield you from a storm  
Where only some dumb idiot would let you go  
But if I'm one thing then that's the one thing  
I should know...  
Can anybody find their home?  
Out of everyone can anybody find their home?  
Lost in the sun can anybody find their home?  
Come on, come on, come on  
Can anybody find their home?  
Oh  
Can anybody find their home?  
Out of everyone can anybody find their home?  
Lost in the sun can anybody find their home?  
Come on, come on, come on  
Can anybody find their home? Oh can anybody find their home?  
Oh can anybody find their home?  
Oh can anybody find their home?
