Hall of Fame

Gabby Barrett

You don't walk through that door
Without landing your lips on mine
Ain't just there when it's easyYou're there all the timeLivin' to the rhythm of your heartbeat
Beats everything I've ever felt
Yeah, I know that I've got it good
And so would everybody elseIf love had a hall of fame
For a summer kiss in the rain
For making me wanna stay
Wrapped in your arms all night, all day
For the way you look at me
It should all go down in history
They'd hang your picture on the wall
And write your name
If love had a hall of fame
If love had a hall of fame
You'd be up there on that stage
Shining brighter than the lights
And I'd be out there in the crowd
Telling everybody that you're mineIf love had a hall of fame
For a summer kiss in the rain
For making me wanna stay
Wrapped in your arms all night, all day
For the way you look at me
It should all go down in history
They'd hang your picture on the wall
And write your name
If love had a hall of fame
If love had a hall of fameYou try to tell me you're the one that's lucky
That there's nothing 'bout me you would ever change
But if everyone could see the man that I see
The whole world would know your name
If love had a hall of fame
Baby, you'd be up there with the greats
For making me wanna stay
Wrapped in your arms all night, all day
For the way you look at me
It should all go down in history
They'd hang your picture on the wall
And write your name
If love had a hall of fame, yeah, yeah
Oh, if love had a hall of fame, yeah, yeah
