

# Leave Me Alone

## Cross Canadian Ragweed

Been a lot of word floatin' round  
'Bout what I do with my life  
People talk but I don't hear a sound, fabricated lies  
You think you got me all figured out, you couldn't even try  
Talking smack behind my back, can't look me in the eyeChorus:  
Cast your stone, dig your bones  
Tuck your tail and head for home  
Leave me alone  
Your eyes, they're quicker than your tongue  
You think that I don't know  
They cut through me like the blazin' sun  
You got no cards to show  
They stare me down from across the room  
You think my ears, they burn  
You'll feel the heat from my fire soon  
Hey stand in line, wait your turn  
Repeat ChorusHey, grab your shovel, boy, keep on digging  
You'll find that nowhere's what you're gettingRepeat Chorus
