

We Out Here (feat. Blackbear & Thurz)

Coolwater Set

Riding with the top down through the valley
Real ones all around me
Got the west coast chick from Cali
Rolling up something cloudy
Let your hair down
Feel the sunshine
All the bad days gonna disappear
We out of here
We out here
We out here
We out here
We out here
We out here
Twistin with the homies
Got to level out my buzz
Dialin up my booty calls
And have a lil fun
Lay back like a motherfucker
Cali tryna fuction
Sunshinin through the west
Ain't no where even touchin
L.A. got me bumpin
Ain't worried about nothing
Day 1's by my side
Dont need an introduction
Hennessy and reefer got me hollering at dumb chicks
I think I'm on that love tip
Then, so were rubbing dumb quick
My days changed on that Bruce Wayne
See my neighbors things fade away
Like a (?) and blood stain
Remain (?), sippin lemonade
Same old game, we pass the blunt
Everything's gonna be OJ
Put them things on my lap
Make you spread them legs
Put my tag on the racks, cause the (?) gon play
Korea towns on the map and we here to stay
Little special Coolwater, bring it back all day
Riding with the top down through the valley
Real ones all around me
Got the west coast chick from Cali

Rolling up something cloudy
Let your hair down
Feel the sunshine
All the bad days gonna disappear
We out here
We out hereWe out here
We out here
We out here
We out here
