Adieu

Tchami

You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
But I need you nowYou tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
But I need you now
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
You tell me to leave you alone
