

# Black And White

Niall Horan

That first night we were standing at your door  
Fumbling for your keys, then I kissed you  
Ask me if I want to come inside 'Cause we didn't wanna end the night  
Then you took my hand, and I followed you Yeah, I see us in black and white  
Crystal clear on a star lit night  
In all your gorgeous colors  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swear in front of all our friends  
There'll never be another  
I promise that I'll love you for the rest of my life  
Now, we're sitting here in your living room  
Telling stories while we share a drink or two  
And there's a vision I've been holding in my mind  
We're 65 and you ask  
"When did I first know?" I always knew Yeah, I see us in black and white  
Crystal clear on a star lit night  
In all your gorgeous colors  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swear in front of all our friends  
There'll never be another  
I promise that I'll love you for the rest of my life  
I want the world to witness  
When we finally say "I do"  
It's the way you love  
I gotta give it back to you  
I can't promise picket fences  
Or sunny afternoons  
But at night, when I close my eyes I see us in black and white  
Crystal clear on a star lit night  
There'll never be another  
I promise that I'll love you I see us in black and white  
Crystal clear on a star lit night  
In all your gorgeous colors  
I promise that I'll love you for the rest of my life  
See you standing in your dress  
Swear in front of all our friends  
There'll never be another  
I promise that I'll love you for the rest of my life And there'll never be another  
I promise that I'll love you for the rest of my life
