

# Barracuda

## People In Planes

Power up  
Beam me down  
    Nibbles  
    Help yourself  
    Just find a cure  
For tv addictionTeacher  
    Sit me down  
    I get accused  
    Don't play scuba  
        Scuba  
        Scuba  
    With the barracuda  
    Don't let me pull over  
        My senses  
    Rely on the finest line  
    The quickest timeSoil's  
        Eroding  
        Keep on  
        Flooring  
    It's mind over matter  
        But it never  
Has the weight for meMother  
    Delivering  
        But no one said  
    Don't play scuba  
        Scuba  
        Scuba  
    With the barracuda  
    Let the cats into the bag  
        And simmer down  
    The electric that they make  
        Can be so great  
Just simmer downDon't let me pull over  
        My senses  
    Rely on the finest line  
    The quickest time
