

Carry Me Away

John Mayer

I'm such a bore, I'm such a bummer
There must be more behind the summer
I want someone to make some trouble
Been way too safe inside my bubble, oh
Take me out and keep me up all night
Let me live on the wilder side of life Carry me away

Carry me away

Carry me away

Carry me away

Carry me away

Carry me away

You carnivore, you loose cannon
Can I have some more? I can't understand it
You fast car, you foolish spender
You know you are, and I surrender
So come on over and wake me up
Put some of your tequila in my coffee cup
You know I need you, and that's for sure
You're just the kinda crazy I've been lookin' for

Carry me away

Carry me away

Carry me away

Where the sun hits my face all different

Carry me away

Carry me away
