

Back On You

Kaskade

All that matters is what you do it all comes back on you
all the love you give, it should come back to you
Oh the lights on, it's shining on your side
Decided i'm wasting time on mind games with you You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day
Ah it's nice if you've got love, is all you need
I'd like to think that love is everything
Oh it should be, it's shining on your side
Decided i'm spending time falling for what's true
You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day
You can play the part, and run away
I will be the fool, who gets to play
Cause i have a heart, getting in the way
Gets to play the fool another day
