

Show Me Love (Spada Remix)

Robin Schulz & J.U.D.G.E.

There's a notebook on the table,
You can take it to the store
So you won't forget the groceries anymore
There's a rifle in the cabinet
That I used to fight a war
But to this day I don't know what I was fighting for
Been fighting for...Will you
Show me love as we get older
And I'm falling at your feet?
After 30 years of service
And one to fit our need.
Show me love as we grow colder;
Let our love provide the heat
That our older bones are missing
But our hearts will never need.
There's a blanket on the sofa
That I use to keep you warm
When I find you fast asleep at half past four.
There's a record we keep turning
That reminds us of our youth -
But there's still nothing as beautiful as you.
(As we grow colder
Love provide the heat
Older bones are missing
Hearts will never need)
Because your hand
Belongs in my hand,
Belongs in your hand;
Belongs with...
With me!
(Blanket on the sofa
That I use to keep you warm
There's a record we keep turning
That I used to turn you on)
Will you
Show me love as we get older
And I'm falling at your feet?
After 30 years of service
And one to fit our need.
Show me love as we grow colder;
Let our love provide the heat
That our older bones are missing
But our hearts will never need.
