

# Take Control

## Raven

Up to here with promises  
No, we can't take no more  
It's time to take what we can get  
And even up the score  
Rising to the challenge  
Take our chances with both hands  
Take control, ain't gonna lose it  
Gonna take control now  
Take control, ain't gonna lose it  
Gonna take control now  
Work my fingers to the bone  
We're fighting tooth and nail  
Our backs may be against the wall  
But there's no way we can fail  
Rising to the challenge  
Take our chances with both hands  
Take control, ain't gonna lose it  
Gonna take control now  
Take control, ain't gonna lose it  
Gonna take control now  
We're watching and we're waiting  
In position lying low  
We're too far gone to go back now  
It's now or never, go  
Scorched earth lies behind us  
As we assume commands  
We're going up and we won't ever stop  
It's time we made a stand  
Rising to the challenge  
Take our chances with both hands  
Take control, ain't gonna lose it  
Gonna take control now  
Take control, ain't gonna lose it  
Gonna take control now  
Take control, ain't gonna lose it  
Gonna take control now  
We're gonna take, take control  
We're gonna take, take control  
We're gonna take control now
