

# Cowboy Lullaby

Tim McGraw & Faith Hill

Just look at that Palomino running like the wind  
And that pretty old paint is acting like she's young again  
Sometimes I wonder where they'd go if they didn't have that fields  
There's just something about  
horses  
That can touch you deep down in your soul  
Girl look at them go  
Makes you wanna just throw off your cares and your troubles  
And go somewhere no one's ever gone before, well  
You and me can do that tonight and  
Let the beat of our heart go flying  
Underneath that milky way ceiling  
If you want to saddle up this feeling  
Baby let's ride that wild wind blowing  
Let it kiss you some stars out of the sky  
Get carried away like some deep river rolling  
Tonight, I wanna be your cowboy lullaby  
Can't you hear that half-moon calling?  
He's gonna hang out all night long  
And sing us a song, yeah  
All you gotta do is take my hand and  
You and me can be weed field dancing  
Now that we got a good fire going  
Let's hide away and let the world keep turning  
Baby let's ride that wild wind blowing  
Let it kiss you some stars out of the sky  
Get carried away like some deep river rolling  
Tonight, I wanna be your cowboy lullaby  
Your cowboy lullaby  
You and me can do that tonight and  
Let the beat of our hearts go flying  
Underneath that milky way ceiling  
If you wanna saddle up this feeling  
Baby let's ride that wild wind blowing  
Let it kiss you some stars out of the sky  
Get carried away like some deep river rolling  
Tonight, I wanna be your cowboy lullaby  
Your cowboy lullaby  
There's just something about horses  
That can touch you deep down in your soul  
Girl look at them go  
Lullaby  
Lullaby  
Lullaby
