

Champion

Fall Out Boy

Champion, championI'm calling you from the future
To let you know we made mistakes
And there's a fog from the past
That's giving me, giving me such a headacheAnd I'm back with a madness
I'm a champion of the people who don't believe in champions
I got nothing but dreams inside
I got nothing but dreamsI'm just young enough to still believe, still believe
But young enough not to know what to believe in
Young enough not to know what to believe in, yeah
If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
I can do anythingChampion, champion
Champion, championI got rage every day, on the inside
The only thing I do is sit around and kill time
I'm trying to blow out the party light, I'm trying to blow out the lightI'm just young enough to
still believe, still believe
But young enough not to know what to believe in
Young enough not to know what to believe
If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
I can do anythingChampion, champion
I can do anything
Champion, champion
And I can do anything
Champion, champion
And I can do anything
Champion, champion
I can do anythingIf I can live through this
If I can live through this
If I can live through this
I can do anything
(I can do anything I can)

If I can live through this
(Can do anything, anything, yeah)
If I can live through this
If I can live through this
If I can live through this,

If I can live through, live through thisIf I can live through this (If I can live through this)
If I can live through this (If I can live through)
If I can live through this (If I can live through this)
I can do anything
(I can do anything)
If I can live through this
(I can do anything)
If I can live through this
(I can do anything)
If I can live through this
I can do anythingChampion, champion
