

# If You Would Come Back Home (Mikroboy Remix)

**William Fitzsimmons**

There's room between your heart  
And the chair where I've been sleeping  
The place that we called home  
Will someday watch you leaving There's room between today  
And the last time that I saw you  
The pictures in my brain  
Will fade until I lose you If you would come back home  
We could start all over  
If you would come back home  
I swear it would be better There's room left in the house  
There's food still in the pantry  
I could fix you lunch  
Or take you out for coffee  
Call the surgeon. Mend the pieces.
