

The Space Between

Majid Jordan

Everybody's on the wall
Waiting on some alcohol
Nobody here wants to talk
No one's on the dance floor
I don't plan on leaving soon
How 'bout we switch up the mood?
I really like your attitude
So why don't we take the leap? Live in the moment with me
Live in the space between
Live in the moment with me
Live in the space between (space between) I been a lot of places
Seen a lot of faces
I can feel the mood shift
So why don't we take the leap?
Live in the moment with me
Live in the space between (space between)
Live in the moment with me
Live in the space between (space between)
Live in the moment with me
Live in the space between
Live in the moment with me
Live in the space between (space between) Come together
Everyone show some love
Have some fun, have some fun
Come together
Everyone, everyone
Show some love
Have some fun, have some fun
Live in the space between
Live in the space between
Live in the space between
Someone take my hand
Make you understand
Live in the moment with me Live in the moment with me
Live in the space between (space between)
Live in the moment with me
Live in the space between (space between) Live in, live in, live in
