Forever Is Ours (feat. Emma Hewitt)

Armin van Buuren

Featuring Emma HewittYou said that you'll open your eyes and see I've found you
If you'd give me a reason I never would've let you go
If I wouldn't leave then I would always stay around you
I'll catch you, I'll catch you when you fallIf I could just stay a moment in your light,
I'm never afraid if I'm within your sight,
So don't you wait, hearts will come,
And always we'll run,
Time won't change, us at all,
Forever is ours again, again,
Forever is ours again, again.
You know I'll stay
You know I'll stayI'll stay by you, forever.
If I could just stay a moment in your light,
I'm never afraid if I'm within your sight,
These are the days I'll carry on with my life,
Can I just stand here in your arms for now?I'll stay... for life
Forever is ours again
Forever is ours again, again
