

Hold Me Down (feat. Stee Downes)

Flight Facilities

You know that I've got you thinking, today I wanna show you
How it would be to start again
The ways we've had to live, the ways we've learned to grow, yeah
Just open up and be yourself
Times that you feel this, I know you can take a step
Hope that you mean it, I can see it's your defence
Lost what I needed, I'm taking every chance
I want it all, I can't pretend
It's never gonna hold me down
And you know it
It's only gonna help me see
Yeah
Turning my life around
No I never listened, to the things you said to me
It's never gonna hold me down
Coz I can belong and I can believe
It's only gonna help me see
If we can be strong and we can't concede
Turning my life around
Just giving it all for what you believe,
I know it's serious, it's gotta be
I know you got your reasons, but I could've told you
That this could never be the end
Sometimes we have to change, just take control
Open up and breathe again
Now that you feel this, let's take a stand
Know that you need it, I can see it's your demands
True to my word, I'm taking every chance
I want it all I can't pretend
(CHORUS x 2)
We can't let this feeling hold us down
No way
The world has got you spinning round and round
Don't walk away
But you can't let these reasons hold you back
Another day
You want it all so you gon' have to find your way
