

For Lovers Only

Maxwell

This ain't for the ones
That just love for fun
That just love and run
That just hold the gun
This is for those that bleed
That want but have no need
This ain't for the war
This is only For lovers only
Lovers only yeah
Strictly for the lovers only
Who are lost and lonely
Ever since the way that you looked at me
Love is not a want
Love is now a need
This is if you want to hold me
Or for lovers only Not for the easy
This ain't bout a style
It's about a take it day by day
It's about a wait
That's worth it baby Ever since the way that you looked at me (ever since the way)
Love is not a want love is now a need (love is now a need)
Not just cuz I got nobody
(Not just cuz I got nobody)
This is only (this is only)
For lovers only
lovers only yeah
this is for the lovers only
Who are lost and lonely Ever since the way that you looked at me
Love is not a want love is now a need
This is for the lovers only
For lovers only
For lovers only
Lovers only
