Used to Love You Sober

Kane Brown

Life was great
Wouldn't change a thing
I had it all but with you I had more
But out of nowhere out of the blue
Our love turned into a war
Now you're gone and you moved on
And i hate the way im feeling
()
Now the only way I know that I can get you off my mind
To keep a bottle so close try to leave it all behind
I couldn't get enough, girl im drowned, drunk in love
I used to think you'd never say its over
I used to love you sober I'm on the floor, cursing at the door
Brokenhearted with a pounding head
And I know I gotta let you go
So the liquor helps me forgetYour name
Your Face
This pain i cant erase
()
Now the only way I know that I can get you off my mind
To keep a bottle so close try to leave it all behind
I couldn't get enough, girl im drowned, drunk in love
I used to think you'd never say its over
I used to love you sober ()
Now your gone, and you've moved on
And I hate the way Im feeling
Now the only way I know that I can get you off my mind
To keep a bottle so close try to leave it all behind
I couldn't get enough, girl im drowned, drunk in love
I used to think you'd never say its over
I used to love you sober
