

# These Are the Times (feat. JRM)

[Martin Garrix](#)

When life gets you down  
We find a way to make it better  
When days turn into dark  
That's when we light it up together These are the times that we've been praying for  
These are the moments that we will not forget  
This is the life that we've been waiting for  
I wouldn't change it for nothing These are the times that we've been praying for  
These are the moments that we will not forget  
This is the life that we've been waiting for  
I wouldn't change it for nothing  
Now that it's clear  
We made it through the rain together  
It feels like home so why don't we just stay forever These are the times that we've been praying  
for  
These are the moments that we will not forget  
This is the life that we've been waiting for  
I wouldn't change it for nothing  
These are the times that we've been praying for  
These are the moments that we will not forget  
This is the life that we've been waiting for  
I wouldn't change it for nothing
