## **Music Sounds Better With U**

## **Big Time Rush**

Better with you

Better with you, yeahI tried to write this down

The words just don't come out

It's hard to say how you feel

Been down the longest road

Said yes when I meant no

I lost control of the wheelCause you know that

Things get so bad

You've got my back

Make me wanna sing, and girl I'll sing about ya

No sweeter sound than what I've found

No perfect love could be more perfect than us

Oooo baby

It feels like

It feels like

Music sounds better with you

Baby

It feels right

It feels right

Everything's better with youI used to think that love

Was something fools made up

Cause all I knew was heartbreak

Oh, I couldn't help myself

Let this heart go through hell

There's only so much a heart can take

Cause you know that

Things get so bad

You've got my back

Make me wanna sing, and girl I'll sing about ya

No sweeter sound than what I've found

No perfect love could be more perfect than usOooo baby

It feels like

It feels likeMusic sounds better with you

**Baby** 

It feels right

It feels right

Everything's better with youEvery song

Every rhyme

Every word

is better with you (Music sounds better with you)

Every day (every day)

All of the time (All of the time)

Every way

Music sound better with youShe's my music enhancer

When the music plays she's my dancer

When I'm around her everything's faster

Every question I have she's the answer

I'm head over heels

Can't explain that this all so real

When I'm around you baby you make me feel like

Everything's better with youOooo baby

It feels like

It feels like

Music sounds better with you

Baby

It feels right

It feels right

Everything's better with you

Oooo baby

It feels like

It feels like

Music sounds better with you

**Baby** 

It feels right

It feels right

Everything's better with you

The music sounds better with you

Music sounds better with you
