

Refugee

Skip Marley

Y-y-yeah
I saw her on the fences through all the borders
She's been a lot of places, sharks in the water
I only want her with me, bring on the trouble
Some never see her beauty, nor see the struggle I'm a refugee
Come around here, come around here
You're a refugee
From around there, from around there So go and tell your people
Bring them to my town
We gon love your people
Let's burn one down
So go and tell your mother
Bring your sisters 'round
'Cause we gon love your people
Let's burn one down
Yeah
Let's burn one down He saw a war was waging, had to escape (ooh yeah)
She told the youths: Get ready, they're gonna make it (ooh yeah)
Run for your life, she tells them, the walls are breaking (ooh yeah)
Peace should be in your future, it's for the taking (ooh yeah) I'm a refugee
Come around here, come around here
You're a refugee
From around there, from around there So go and tell your people (go and tell your people)
Bring them to my town
We gon love your people
Let's burn one down (oh yeah)
So go and tell your mother
Bring your sisters 'round
'Cause we gon love your people
Let's burn one down
Oh, oh oh oh oh
Oh I
Woh, oh oh oh oh
Let's burn one down (Maybe we can burn one down)
(Maybe we can burn one down)
Refugees around I'm a refugee
Come around here, come around here
You're a refugee (ey)
From around there (ey, ey) So go and tell your people (go and tell your people)
Bring them to my town
We gon love your people (oh yeah)
Let's burn one down (really)

So go and tell your mother (go and tell your mother)
Bring your sisters 'round (ey)
'Cause we gon love your people (yeah)
Let's burn one downGo and tell 'em all, yeah
Go and bring your people 'round (one down, one down)
Maybe we can burn one down (if it feels all right)
Go and bring you sisters 'round
Well, yeah, I'm a refugee and you're a refugee
Maybe we can burn one down (you're a refugee)
