

# Computer Love

Gurr

300 crimes, only admit to one  
They've been charging me slowly  
Police they don't know me  
My kids are on the run  
Objection your honor, relevance? sustained  
I've never worn cologne before  
I do not know MS Paint  
My kids are on the run  
Bazillion megahearts, her space is running low  
Storing all the memories of you and me from the get go  
My kids are on the run  
I'm floating the world wide web  
I'm Sparrow she's my boat  
I LOVE THE INTERNET  
Electrosmog's my alcohol  
My kids are on the run  
Computer Love  
National Intelligence banging on the door,  
Should destroy the evidence my love is growing more  
I can't leave my ladyboard we've never been apart  
Will I ever see her again?  
No visiting hours  
It breaks my heart
