

# Dare Ya

Carly Pearce

I took your coat, I wasn't that cold.  
Gotta a little too close, come on don't ya know?  
Am I giving you enough to let you know that I want ya, my heart is beating out loud like  
thunder.  
Are you going to kiss me?  
are you going to make me wonder? It's your move boy, I'll follow you boy.  
I ain't going to lead, I am a lady like that.  
So I am going to keep looking at you like I dare ya, I am going to keep looking at you like I  
dare ya. These strung up lights, are staring right at us.  
It would be the perfect time to mess my lipstick up.  
Trying to keep my cool, but you give me fire.  
I am already high, but you could take me higher.  
Turn this sweet night into something wilder.  
It's your move boy, I'll follow you boy.  
I ain't going to lead, I am a lady like that.  
So I am going to keep looking at you like I dare ya, I am going to keep looking at you like I  
dare ya. Am I giving you enough to let you know that I want ya, my heart is beating out loud  
like thunder.  
Are you going to kiss me?  
are you going to make me wonder?  
It's your move boy, I'll follow you boy.  
I ain't going to lead, I am a lady like that.  
So I am going to keep looking at you like I dare ya, I am going to keep looking at you like I  
dare ya. It's your move boy, I'll follow you boy.  
I ain't going to lead, I am a lady like that.  
So I am going to keep looking at you like I dare ya, I am going to keep looking at you like I  
dare ya.
