## Thundercat, OG Ron C & DJ Candlestick

Sometimes you have to let go  
To free fall away  
I won't judge you anymore  
'Cause sometimes I needed to  
Free fall far away  
Out of sight, out of mind I'm so tired  
Where can I lay my head?  
I'll just close my eyes  
Hope I wake up dead  
Don't want to live without you  
Don't leave me out here to die  
Maybe another time and space  
When I look you in the face  
Far, far away  
Maybe in another life
