

Carry On (feat. Killer Mike)

Tkay Maidza

They say they're coming for ya but I don't want none
Cause I really don't care and I'm still kinda young
You can [?] and they all want some
This living communism when I tell you this is mine Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on)
Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on) All these people poppin' round, I swear I need
an Adderall
But I won't let them witness what's in close with what I think
Teacher keep on questioning, they're pointin' out my novice
Now they're jammin' to my jingles like they're on an Ice Rink
Rocking jeans on crossroads and reading out the Cosmos
If they're looking like an issue, wipe them off the windshield
Nothing left to lose, I'm sipping with the same attire
And I know you feel the heat because I'm nothing less than fire
They say they're coming for ya but I don't want none
Cause I really don't care and I'm still kinda young
You can [?] and they all want some
This living communism when I tell you this is mine Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on)
Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on) Yo Hey Tkay, baby, they be hatin', you're fresh
The more you rise they tell you compromise your best
I say fuck up, I say get that bullshit off your chest
Don't let a hater cause a bead of sweat on your breast
Baby, keep it cool, it's the first day of school
Knowin' you a rebel and about to break the rules
These old folks scared and they want you to be too
Handlin' you like a toddler, what they want you to be too
Shit, handle it like ply, tell 'em "nah bitch nah"
The world is for the taking, take it all bitch, all
You the game winner, I say ball, baby, ball
You the shit, no toilet paper, no stall
And baby I'm the butt naked truth, no draws
Anybody disagree can get the "ooh" and the "ahs"
And that's from your brother from another mother
Make sure you stunt hard and you shine on them suck
Mother-flah
They say they're coming for ya but I don't want none
Cause I really don't care and I'm still kinda young
You can [?] and they all want some
This living communism when I tell you this is mine I set it off

Now carry on
I set it off
Now carry on
I set it off
Now carry on
I set it off
Now carry on Still kinda young—I'm still kinda young
Still—still—still—still kinda young
Still kinda young—I'm still kinda young
Still—still—still—still kinda young I'm like the Himalayas, [?] nothin'
Tryna get on this girl, but they trippin', slippin' and puffin'
Killin' 'em, Michael, kill 'em, like busy and movin', movin'
The circle is smaller, smaller, but focus made me a nuisance
Witness, witness, got no riddance, I don't hinder, why you vicious?
Spinners, spinners, I don't help you, not benefited then forget it
Carry on, you never find me if you get in there
You see that I don't care cause I'm too young to be prepared They say they're coming for ya but
I don't want none
Cause I really don't care and I'm still kinda young
You can [?] and they all want some
This living communism when I tell you this is mine Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on)
Watch what you've been [?] on (I set it off)
Watch what you've been [?] on (Now carry on)
