

# Atmos (feat. Wafia)

## Thrupence

You've been starring down this road forever  
Hoping there's a way you'll try  
But right now I need you more than ever  
You won't see it in the way I cry You've been starring down this road forever  
Hoping there's a way you'll try  
But right now I need you more than ever  
You won't see it in the way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
The way I cry  
You've been starring down this road forever  
Hoping there's a way you'll try  
But right now I need you more than ever  
You won't see it in the way I cry  
The proof is in the way you stayed  
With the baggage that I left your way  
With the baggage that I left your way You've been starring down this road forever  
Hoping there's a way you'll try  
But right now I need you more than ever  
You won't see it in the way I cry  
The proof is in the way you stayed  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way  
With the baggage that I left your way You've been starring down this road forever  
Hoping there's a way you'll try  
But right now I need you more than ever  
You won't see it in the way I cry
