## Up All Night

## **Beck**

When you get the rhythm and words all make you cold When you break it down and this world is all you know

Hands up, you're waving it around

Now get yourself together

When you count the dominos fall, it's time to goNow I'm feeling so far away

I see the colors and all the kids going home

Night is crawling into the day

I hear my voice ringing

The summertime's singing

Just want to stay up all night with you

Just want to stay up all night with you

There's nothing that I wouldn't rather do

Just want to stay up all night with you

I'll keep it moving

Don't wait for nothing now

I gotta keep it moving

Don't wait for nothing now

I'll keep it moving

Don't wait for nothing now

I gotta keep it moving

Don't wait for nothing now

1,2, what you doing?

I've been jumping through some hoops

Want to get my body loose

Want to tell you, tell you what to do

I've been running on the grass like an animal struggling

Looking for a diamond

I'm trying, I'm fighting

Back into the rhythm now

I just want to stay up

I just want to stay up all night with you

With you, with you

Just want to stay up all night with you

Just want to stay up all night with you

There's nothing that I wouldn't rather do

Just want to stay up all night with youHands up in the air

If you don't really care

Living on [?] there

If you got the climb to take it up thereHands up in the air

Living out on a prayer

Never know that you're there

Nothing that I want but rather be there
