

All

Kashif

Look at me and you, we've come this far
It's been rough sometimes but here we are
It's said and done
You're still the one for me
For all our love was good as true
All I have a gift to you
All I've ever wanted to do
Is make my love a part of you
You're the first in my life that I have letted show I could love from inside and see how my loves
grow
Treasure won't hurt cause that what you were to me babe
For all our love was good as true
All I have a gift to you
All I ever wanted to do
Is make my love a part of you
No way no how I would ever let my love suicide
No way no how love is gonna get you babe
All our love was good as true
All I have a gift to you
All I've ever wanted to do
Is make my love a part of you
So much loving here now babe
Ohh, ohh I have a gift to you
All I ever wanted to do
Is make my love a part of you
So much loving here now babe
Ohh babe
All I ever wanted to do
Is make my love a part of you
