

Same Heart

Keith Urban

Traded in my old Toyota and I moved out of that shoebox apartment
I've been wearing brand new clothes
Even changed the number on my phone
Different bars and different streets
Different drinks, different lips
Different parts of town
A different Friday crowd
And there's different songs on the radio...who am I kidding
Everything's different now
Everything
Chorus:
But the same heart
That loved you's still beating in this chest hard
No matter how far I think I've moved on
There's always gonna be a scar
'Cause I still got the
I still got the same heart
I've been goin' different ways to get to work
'Cause if I go down 12th, it still hurts when I pass that corner light
Where your laughter and that 'Wanderlust'
Comes flooding back and fills up my car
And I realize that a piece of me
Will always wonder where you are
Repeat Chorus
I still got the same heart
I could say that I'm
fine but I'd be lying
It's so hard to move on but I keep trying
Every breath that I take
You're there reminding me
I could say that I'm fine but I'd be lying
It's so hard to move on but I keep trying
It's so hard to move on but I keep trying
I'm lying
I still got the same heart
That loved you, it's still beating in this chest hard
No matter how far I think I've moved on
There's always gonna be a scar
'Cause I still got the
I still got the same heart
I still got the, I still got the same heart
I still got the
