

# Melt

## JONES

Whatever happens  
You know we're gonna repair  
No matter what happens  
You know we've got something rare We started with nothing, grew into something  
We've got the heat  
To last a lifetime, if it's the right time  
Trust in me  
Take it from someone, who's not a tough run, oh  
No matter what happens  
No matter what happens We've got the heat  
Melt with me  
You know we've got the heat  
Melt with me  
Whatever happens  
You know we've got something real  
No matter what happens  
You know I'm gonna watch you near  
So get over here We started with nothing, grew into something  
We've got the heat  
To last a lifetime, if it's the right time  
Trust in me  
Over the motions, this isn't over, oh  
No matter what happens  
No matter what happens We've got the heat  
Melt with me  
You know we've got the heat  
Melt with me, oh  
Come melt with me  
Come melt with me  
Come melt, come melt, come melt with me  
Come melt, come melt, come melt with me  
Come melt, come melt, come melt with me You know we've got the heat, oh  
Melt with me  
Yeah, we've got the heat  
So melt with me  
Oh, you know we've got the heat, yeah  
(Melt with me)  
So melt with me  
(Melt with me)  
Oh oh, we've got the heat  
(We've got the heat)  
So come on melt with me

(Melt with me)Come on, melt with me  
Come on, melt with me  
Come on, melt with me  
Come on, melt with me  
Mmm, mmm
