

Champagne Town

Jason Aldean

Red eye got delayed
Blame it on the rain
Guess I gotta stay another night
In this town full of lights
Guys like me don't like
Yeah, I flagged a yellow car
Found a smokey bar
Threw this old heart on a stool
Let me and this ninety proof
Do what we gotta do
So I'm here drinkin' whiskey
In a Champagne town
Are you tryin' not to miss me
Like I'm tryin' not to miss you now
Blamin' you by two and me by three
It's plain to see all I'll ever be to you
Is what I am right now
Nothin' but whiskey in a Champagne town I was just a stop along the way
Just a phase you were goin' through
In the back of your mind you knew
What this was comin' to, yeah, so did I
But it still burns tonight
Just like this whiskey
In a Champagne town
Are you tryin' not to miss me
Like I'm tryin' not to miss you now
Blamin' you by two and me by three
It's plain to see all I'll ever be to you
Is what I am right now
Nothin' but whiskey in a Champagne town I'm sittin' here drinkin' whiskey
In a Champagne town
Are you tryin' not to miss me
Like I'm tryin' not to miss you now
Blamin' you by two and me by three
It's plain to see all I'll ever be to you
Is what I am right now
Nothin' but whiskey in a Champagne town Ain't nothin' but whiskey, whiskey
In a Champagne town
Ain't nothin' but whiskey, whiskey
In a Champagne town
