

# Attitude (feat. BJ the Chicago Kid)

## Chuck English

Ice cream, ice white ones, we the dream team  
High top Timbs, tuck it in, go with anything  
Anything? Yeah, that Northface, bet  
That army green tech shell jacket that reflects  
Carhartts saggin', I forgot my belt  
Karl Kani sweats one pants leg up  
When I lay eyes on her, gave the whole game up  
We shoulda danced one time, curveball, changeup  
Check it  
Friday in a whip, playin' shawtay off late  
With my shorty mixtapes for the party  
Something old from the crates, ice cold milkshakes  
Couple girls had curls, couple girls had braids  
(Know what I'm sayin?)  
It's like the whole shebang  
Better than gripping money when I hold your hand  
That's the whole word, keep a dope verse like this  
Lil' jewels you could drop off in your purse real quick  
Girlfriend, take a first class flight around the world twice  
Bet you won't find another love like this  
We'll never be poor, but we might get rich  
And I ain't worried bout that cause I'm makin' these hits  
Make love not paper, but we save ours up  
So we could take a vacation, baby roll one up  
Cop that Benz G-Wag truck, the one that you love  
New paint job, cover it what color you want  
Girl, I ain't gon' trick cause you ain't going nowhere  
Said the shit so good, girl I ain't making it fair  
You'll be going nowhere fast, cause can't nobody do you like I do  
And when they see me, they see you  
Cause baby you are  
Yeah girl you are  
My shining star  
Or near or far  
My shining star  
Get it girl, get it girl, get it girl, huh  
Old habits die fast in my world  
Eyes open, fly over, be my girl  
Arms open looking for it like a pearl  
Ice cream, waffle cones, with the swirl  
Curls in your hair, fingernails get the twirl  
Hands in the air, air, sure

At the party, play the jam, let's see you work  
Say word, lookin' real live like "that's my girl"  
Airbrush the sweats, together, forever, pinky promise, bet  
Same time, a simple homage, you can take your pick  
But watch movies on the couch, I know you love that shit  
And if they ever looking for me  
They can always find me, cause I'm with you  
Yeah girl you are  
My shining star  
Or near or far  
My shining star  
Yeah girl you are  
My shining star  
Or near or far  
My shining star  
Don't matter if the time's right  
Matter fact, the time's right  
I ain't too busy caught up in the night life  
Baby, you my limelight  
And you shine bright  
Baby you, you always send me sky-high  
I never knew I could fly  
Got my eyes looking high  
That's why I'm never saying bye  
Cause baby you are  
Yeah girl you are, my shining star or near or far  
my shining star Yeah, they can always find me cause I'm with you  
Chilling with you  
Eating with you  
Loving on you
