

# Give Me the Beat

## Ghostland Observatory

Im struttin down the boulevard i stop and grab a drink  
The pusher man comes slidding up says boy got what you need

I got ups and i got downs  
The whites and the greens  
Do you toke i think you smoke  
I said man that aint for me

Just give me the beat  
Thats all i need  
Just give me the beat  
Thats all i need

About that time a caldilac comes bumbin down the street  
Hits his breaks and pops the trunk says this you got to see

Ive go chains and diamond rings a tracks and lp's  
Do you like my merchandise says still that aint for me

Just give me the beat  
Thats all i need

Just give me the beatThats all i need(scream) night loss (bridge)

He throws his cape around my back says kid just come with me

You havent seen my stable yet got every kind of breed

Step inside and meet the girls sheela and jolene

Legs for days they go both ways still that aint for me

Just give me the beat  
Thats all i need  
Just give me the beat  
Thats al i need
