

I Know You Know (feat. Cymphonique)

Big Time Rush

Oh woah
Oh woah Maybe this could be the line
That starts the whole story Maybe you could be the one
The one who's meant for me
I know that I should wait
But what if you're my soulmate? Slow down
Then you say
Slow down
'Cause we can We can
Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got
Your heart thumping
I know you know we know
We got something We could
Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping I know you know we know
We got something
You know this ain't me at all
I'm usually lost for words You know I can't help but fall
I've never felt so sure
You got me in a hurry
But don't you gotta worry
'Cause I'll slow down
When you say slow down
But we can
We can Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got Your heart thumping
I know you know we know
We got something
We could Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping I know you know we know
We got something
Right (yeah)
We're two of a kind So let's party like it's '99

Yeah
I know you know I got Your heart thumping
I know you know we know
We got something
Hey baby you drive me crazy
It ain't about what you done for me lately
It's all about you
Know lie it's the truth just wanna say
I gotta big time crush on you
I know you know we could be something
I know you know
We got something
We can
Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got
Your heart thumping
I know you know we know
We got something
We could
Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping
I know you know we know
We got something
Right
We're two of a kind
So let's party like it's '99
Yeah
Yeah I know you know we know
We got something
Oh woah

Oh woah
