

# Smoking Cigarettes

## [Tweet](#)

Why oh why (why)  
Gave you several years of my life  
And it just ain't right  
What's your perception of love  
Now how many times did we say it was over  
And how many times did we not leave  
There's no sense in this love hangover  
Please come back to me  
Cause I can't forget your ways  
I still remember our first kiss I'm nervous and trembling (smoking cigarettes at night)  
Wondering where you been (smoking cigarettes at night)  
I can't cope with this (smoking cigarettes at night)  
You're the one to help me quit (smoking cigarettes at night)  
In the midnight hour  
Late in the midnight hour  
I see the etch of your face  
And it makes it hard for me to breathe  
What can I do to change your decision  
Please work with me (me)  
Sometimes my eyes won't close from weepin'  
And sometimes I can't wake up from sleepin' (why)  
Cause you keep callin' me  
Keep callin' me in my dreams  
I can't forget your ways  
I still remember our first kiss I'm nervous and trembling (smoking cigarettes at night)  
Wondering where you been (smoking cigarettes at night)  
I can't cope with this (smoking cigarettes at night)  
You're the one to help me quit (smoking cigarettes at night)  
Newport, Winston, Salem's, Marlboro Lights  
Don't matter what the kind  
Cause you got me smokin' out on you  
Got me puffin' bout a pack a night (pack a night)  
And I know it ain't healthy I'm nervous and trembling (smoking cigarettes at night)  
Wondering where you been (smoking cigarettes at night)  
I can't cope with this (smoking cigarettes at night)  
You're the one to help me quit (smoking cigarettes at night) I'm nervous and trembling (smoking cigarettes at night)  
Wondering where you been (smoking cigarettes at night)  
I can't cope with this (smoking cigarettes at night)  
You're the one to help me quit (smoking cigarettes at night) Know it ain't healthy, smokin'  
Gotta quit

You're the only one
