

# Lethargy

## Bastille

Lethargy got a hold of me  
And I don't know how to shake it  
Got these itchy feet for a change of scene  
Do anything to escape it  
Get up, get up, pressure, pressure  
Run away as fast as you can go  
Everyday your friends and lovers  
Give the answers everybody knows  
You told me not to be like anybody else  
Headspin, happiness, death  
Be like anybody else  
Broke down, nothing else left  
You checked out years ago  
Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you  
C'mon, relax  
There's an English man up in space these days  
Floating in awe and wonder  
As he broke away from the atmosphere  
And all of us non-believers  
Get up, get up, pressure, pressure  
Run away as fast as you can go  
Everyday your friends and lovers  
Give the answers everybody knows  
You told me not to be like anybody else  
Headspin, happiness, death  
Be like anybody else  
Broke down, nothing else left  
You checked out years ago  
Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you  
Paint the scene for me  
Paint it bright and paint it clear  
I don't want to use my imagination here  
Don't want to use my imagination here  
Paint the scene for me  
Paint it bright and paint it clear  
I don't want to use my imagination here  
Don't want to use my imagination here  
You told me not to be like anybody else  
Headspins, happiness, death  
Be like anybody else  
Broke down, nothing else left  
You checked out years ago  
Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you
