

# Chasing Shadows

## Stratovarius

I have been sailing across the oceans  
Flying across the blue sky  
Without never finding the answer  
The answer to question why Just when you think you reach it, it's gone Chasing shadows,  
chasing shadows  
Chasing shadows, all your life  
You're chasing shadows, chasing shadows  
Chasing shadows, all your life  
Harder you try to fix things in your life  
Faster you know it's in vain  
Searching for loving from strangest places  
Nothing is left but the pain Just when you think you reach it, it's gone Chasing shadows, chasing  
shadows  
Chasing shadows, all your life  
You're chasing shadows, chasing shadows  
Chasing shadows, all your life Chasing shadows, chasing shadows  
Chasing shadows, all your life  
You're chasing shadows, chasing shadows  
Chasing shadows, all your life  
You're chasing shadows, chasing shadows  
Chasing shadows, all your life  
You're chasing shadows, chasing shadows  
Chasing shadows, all your life
