

Trumpets

Timmy Trumpet & Lady Bee

Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound
Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound
Better get ready You better get ready with the trumpet sound
Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound
Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound No matter where you
No matter where you
No matter where you
No matter where you
No matter where you
No matter where you
No matter where you...
You better get ready with the trumpet
You better get ready with the Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound Come around, boy
Come down
You better get ready with the trumpet sound
No matter where you from, which town
You better get ready with the trumpet sound You better get ready with the trumpet sound
