## Sledgehammer

## **Fifth Harmony**

If you could take my pulse right now
It would feel just like a sledgehammer
If you could feel my heart beat now
It would hit you like a sledgehammerI don't admit it, I play it cool
But every minute that I'm with you
I feel the fever and I won't lie, I break a sweat
My body's telling all the secrets I ain't told you yetOh oh

I struggle to contain

Woah oh

The love that's in my veins

Oh oh

And how it circulates

Oh oh

If you could take my pulse right now It would feel just like a sledgehammer If you could feel my heart beat now It would hit you like a sledgehammer

You're taken over the beat of my body, you just don't let up, don't let up You're taken over the beat of my body but you lift me up, lift me up If you take my pulse right now

It would feel just like a sledgehammerSo close together, so far apart You're turning me on and my fire's waiting for your sparkOh oh

I struggle to contain

Woah oh

The love that's in my veins

Oh oh

And how it circulates

Oh oh

If you could take my pulse right now It would feel just like a sledgehammer If you could feel my heart beat now It would hit you like a sledgehammer

You're taken over the beat of my body, you just don't let up, don't let up You're taken over the beat of my body but you lift me up, lift me up

If you take my pulse right now

It would feel just like a sledgehammerThe truth is out, no stopping now, I'm getting closer

I've had enough, undress my love, I'm coming over

(If you could take my pulse right now

It would feel just like a sledgehammer, oh

And if you could take my pulse right now

It would feel just like a sledgehammer, hammer, hammer)If you could take my pulse right now
It would feel just like a sledgehammer

If you could feel my heart beat now
It would hit you like a sledgehammer
You're taken over the beat of my body, you just don't let up, don't let up
You're taken over the beat of my body but you lift me up, lift me up
If you take my pulse right now
It would feel just like a sledgehammer
