

# Divine Sorrow (feat. Avicii) [Klingande Remix]

Wyclef Jean

Dearie blossom  
I've gone down to old rock bottom  
Now I know the love in my heart was true Divine sorrow  
I thank you for the joy that follow  
Back then my friend  
If only I knew  
It is harder when you love beyond belief  
But I'm a fool to let you go  
So this is for you my love  
We will never  
We will never have a change of mind  
We belong together  
We will never  
We will never be the weary kind  
We sing our sorrows away  
We sing our sorrows away  
We sing our sorrows away  
Divine blessing  
I wish I would have heard your lesson  
Now I know your words were my only truth  
I'm just venting  
Or maybe I'm done confessing  
Back then my friend  
If only I knew  
It is harder when you love beyond belief  
But I'm a fool to let you go  
So this is for you my love We will never  
We will never have a change of mind  
We belong together  
We will never  
We will never be the weary kind  
We sing our sorrows away  
(Yeah Yeah Ohh)  
We can make it trough judgement day  
We won't go fading away  
All I ever know must be heaven where you come from  
We can make it trough cloudy skies  
All I even know must be heaven where you come from  
Yeah!
