

Mystery

J Boog

She a Mysteryah,
Never knew a love (girl) that made me feel the way you do
I remember talking it up until the morning dew
and, I never knew that this can get so far
Love to take it back from the top backyard?
can't get over all the little thing that you do
that special kind of rubbing' make me whine up the mood boy,
whoa girl you done did it now,
bout to flip it up and break your body down
My baby she's a mystery,
she only love me when she tipsy,
when we sipping on Tennessee whisky,
thats the only time that I feel like she miss me
and when she sober again she a diss me,
Sober, acting like she don't wanna come over
pulling in me driveway in da rover
driving me so crazy like a choufer (spelling)
then she stop in town every time me show onThought I was in love until she came up on the
scene
now infatuations got me feeling' like feen
stayin' up late waiting all night long,
can't wait to see your face walking through my door
what the hell is up there's a change in your attitude
need some serious help and sign up for council too
me (need) so serious ill sign up for council too? nah,
Hopefully the storm gets calm,
sirens wail out.)
(knew that it would come to this time
fully recovered saying the same old lineMy baby she's a mystery,
she only love me when she tipsy,
when we sipping on Tennessee whisky,
thats the only time that I feel like she miss me
and when she sober again she a diss me,
Sober, acting like she don't wanna come over
pulling in me driveway in da rover
driving me so crazy like a choufer (spelling)
then she stop in town every time me show onNow she back in love and we wavin' our crystal
glass
she saying you with me forever don't know if it'll last, ohh
no other niggas spoiling the mood
make sure i have plenty liquids keep her feeling cool.
