

Back 2 Life (Live It Up) [feat. T.I.]

Sean Kingston

Steady
Are you ready?
Back to life, back to reality
Back to life, back to reality
Goin' through a dark place, dark time and I couldn't even see the light
Had my back up against the wall, I was feelin' like do or die
But what don't kill me make me stronger, know it's gonna be alright
So we celebrate here tonight
Yea, we celebratin' life tonight
The time is now, gotta make it count
So before we die, let's go all up
We'd gotta live it up, up, up
Champagne in my cup, cup, cup
Me take, turn it up, up up
Bring me back to life, back to life
Yea, we'd better live it up, up, up
You know we don't give a what what what what
So to my time's up
Bring me back to life, back to life
Back to life
Back to life, back to reality
Back to life, back to reality
All the tears and all of the prayers
Every single one the ash should
So they level give them batial is bigger than the whole country
From England to Japan, to Jamaica to way down the MIA
We don't stop, we go hard, let's get it in, call it young and free
The time is now, gotta make it count
So before we die, let's go all up
We'd gotta live it up, up, up
Champagne in my cup, cup, cup
Me take, turn it up, up up
Bring me back to life, back to life
Yea, we'd better live it up, up, up
You know we don't give a what what what what
So to my time's up
Bring me back to life, back to life
Back to life
Back to life, back to reality
Back to life, back to reality
Okay, the circus tried to bare me, Jesus had to carry me
Middle finger to the ripper ain't gonna scare me

You can't be, you don't understand who I am
It's trouble man, hundred grand in my pan
With the broccoli, hard times put the cell mate bars
Maseratis, Ferrari's, those money don't play back
Presidents stop me, imagine if I stay that
Still shinin' on to make them haters put their shades at
When tragedy strikes I strike back
Lookin' for to all over and out, who does that?
Left a nigga for dead, came back to life
I guess this is me ballin' in the afterlife
Let's hit it
Back to life, back to reality
Back to life, back to reality
We'd gotta live it up, up, up
Champagne in my cup, cup, cup
Me take, turn it up, up up
Bring me back to life, back to life
Yea, we'd better live it up, up, up
You know we don't give a what what what what
So to my time's up
Bring me back to life, back to life
Back to life
That's it
