

Adventures

Kid Cudi

And we're floating out to nowhere
No safety, what will end safely
Inadequate, he is so unwanted
Make him want to disappear
From the fire calling
Damn that is so unfair
Inadequate, he is so unwanted
Make him want to disappear
From the fire calling
Damn that is so unfair
How could I care? How could I care?
How could I care?
And we're floating out to nowhere
No safety, what will end safely
Lost in my reflection, how do I chill?
Only crazy makes sense, it's starting to make sense
While I'm still
Her vagina is moist and warm
I'll keep you safe just hold my arm
Hell is beyond the door
Heaven doesn't want one more
No more chicken sandwiches
Yes I will pay for the damages
I explore through the galaxy nightly
On my body
Accept yourself, except yourself
Exit yourself, access yourself
No safety, what will end safely
Inadequate, he is so unwanted
Make him want to disappear
No safety, what will end safely
That song was kind of freaking me out
Ya it flowed
No safety, fall, we will end safely Beavis
Kind of makes me think about my life ya know
What life?
Ya ya exactly
The part "We're floating out in nowhere"
Don't worry Beavis we will land safely
How come you're talking lie that Butthead
Like what?
Come on stop it
I'm not talking any differently than I'm normally talk Beavis

Take some of these mushrooms that Cudi gave us
They'll make you feel better
Stop talking like that Butthead
Like what Beavis?
Take some mushrooms Beavis
These mushrooms suck, but they're fast acting aren't they
These taste horrible
Eat them all Beavis
They're doing something, give me some more
Trust me Beavis
