

# Number Ones

## Bow Wow & Omarion

What you hear is the voice of a prince in his prime  
I articulate and other just rhyme  
I paint the picture nigga I'm Picasso  
Raw from the brick to the nostril hostile  
Sick and I seek no cure speak nothing but the truth The shit keeps ya boy so peuw  
Never will I sound like he is not be though  
I'm on my own dick my no hoe  
Couldn't be in the same room as octane  
I see you doin' ya thing but you ain't the same Now I'm sittin' poolside with bad females  
Wipe off the gucci shades yeah I can see well  
Touch my mula I'll choke ya like spree well  
Mercedes drop a baby and you know it's v12  
Pound for pound we the hottest doin' it  
Anything I want outta life I'm pursuin' it  
Ain't respecting the game, they just ruin it I'm a bring hip hop back, watch how I'm doin' this  
Flood the whole game, then float like Noah  
Slip in the well and sing hymns like Jonah  
On the stage alone, one mic, I'm a loner  
I'm the heartbeat to in my city on the corner  
So they call me swagger doner since life is my I'm a stagger on her Yo soy numero uno  
Yo so optimo  
You want more nina bonita  
I'll give you more, I'll give you more Left side scream, right side scream  
Middle to the top  
You want more nina bonita  
I'll give you more, I'll give you more  
See the money means nothing if I can't hear you  
To get here, if I only knew what we went through  
Blood sweat tears turn it into bright lights along with cheers  
Never will I move like he who is not, I'm on my own shh, I'm on fire Hot like flame, the flow is  
not the same  
I'm the connect, respect the left lane  
Te pace has been set, ain't no stopping me  
Jewelery alone can buy property Get money split it two ways  
The new face tycoon status what can you say  
It's irrelevant man, we sellin' out stadiums  
Staples center to the palladium  
Entertainin' them, givin' you numb one Yo soy numero uno  
Yo so optimo  
You want more nina bonita  
I'll give you more, I'll give you more Left side scream, right side scream  
Middle to the top

You want more nina bonita  
I'll give you more, I'll give you moreScream  
Scream  
Scream
